A Taste Of Westchester: November 11th, 2019

This event is near and dear to my heart. My sister Karen, my Irish Twin, is 13 months older than me. She was born with Cerebral Palsy and has attended Cerebral Palsy of Westchester since she was a teenager. Karen is at CPW still, in her mid-40s! She's probably the reason I became a special education teacher and she's definitely the reason why I chose to settle in Westchester with my family. CPW has been her home away from home for all of these years and I have witnessed first-hand how amazing their program is.

About the Event – A Taste of Westchester

Join us for an evening featuring the area's finest restaurants, top chefs noted for their cuisine and a worldly selection of wine, spirits and beers from different beverage establishments. Come taste . . . sample . . . mingle with special guest host Joy Bauer of NBC's Health + Happiness, and the TODAY show. Sit back and relax in the Aries Wine & Spirits Tasting Lounge, hosted by lead beverage sponsor Aries Wine & Spirits, and win vacations, and prizes through a Balloon Pop, Wine Wall and Silent Auction. All proceeds will benefit CPW's programs, fostering independence for individuals with disabilities and enabling them to participate to their fullest extent in their community.

Erin Baker – co-founder of EMMA WESTCHESTER

I'm a fourth-generation native of Westchester County where I attended college locally, spent ten years as a teacher and is now a "stay-at-home" mom raising my daughter and son in the same town that I grew up in. I enjoy reading, shopping and being the "go-to-girl" for my family and friends.
