

Thank You For Wanting To Make A Difference!

Get Involved through Remote Volunteering Community Service Projects for All

Cerebral Palsy of Westchester provides opportunities to people interested in volunteering—we work together to create a volunteer experience that works with your interests and scheduling needs. In keeping with COVID restrictions, we are excited about our virtual volunteer program! Opportunities include reading to our school students, singing and dancing with music, playing or teaching sports, cooking, arts and crafts, helping out with fundraising events, as well as organizing and implementing specially designed projects. While in person volunteer opportunities have been impacted by the pandemic, these virtual and remote opportunities we have to offer will make a difference in our children and adults with special needs. Volunteering has a positive impact not only on our individuals but also the volunteer.

To learn more about how you can get involved through remote volunteering, please reach out to our Internship & Volunteer Placement Manager Joan Colangelo at Joan.Colangelo@cpwestchester.org. Together we will create a meaningful community service opportunity based on interest and availability. While volunteer opportunities have been impacted by the pandemic, as restrictions are lifted additional volunteer opportunities will become available.
